23RD INTERNATIONAL CONFERENCE ON DIFFERENCE EQUATIONS AND APPLICATIONS

JULY 24 – JULY 28, TIMIȘOARA, ROMANIA

The 23rd International Conference on Difference Equations and Applications (ICDEA 2017) will be held at West University of Timișoara, Romania, under the auspices of the International Society of Difference Equations (ISDE), from July 24 to July 28, 2017.

ICDEA 2017 aims to bring together researchers and scientists from around the world, to present, discuss and offer solutions in the fields of Difference Equations, Discrete Dynamical Systems and their applications to various sciences. The purpose of the conference is to encourage and to promote the dialogue between scientists in these fields and to accelerate the progress in some of the most active research areas nowadays.

ICDEA 2017 will host the **General Meeting** of the **International Society of Difference Equations**. Two important events will take place within the General Meeting of the ISDE: the awarding of the **"Bernd Aulbach Prize"** for significant contributions and life-time achievements in the field of difference equations and discrete dynamical systems and the awarding of the **"Best JDEA Paper Prize"** for the best paper published in **Journal of Difference Equations and Applications (JDEA)** in 2016.

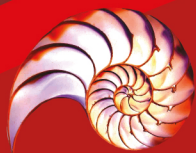

During the conference there will be **plenary talks (50 min + 10 min)** and **contributed talks (25 min + 5 min)**.

The plenary speakers are outstanding experts in the field and are chosen by the Scientific Committee from various areas of difference equations and dynamical systems. The recipients of the awards **"Bernd Aulbach Prize"** and **"Best JDEA Paper Prize"** are invited to be plenary speakers at ICDEA 2017.

The contributed talks are welcome and will be considered. During the conference we will organize a special session for PhD students.
